Jack Tar at a Christening.  
A sailor went up to the font to have  
his baby baptized. Sailors as a class  
claim little stock in babies, and natu-  
rally enough this one presented the in-  
fant feet foremost.

"The other way," said the minister,  
and accordingly Jack turned the infant  
upside down.

"Excuse me," said the clergyman, "I  
mean the other way." So back came  
the embryo foretopman to the first po-  
sition, to the discouragement of every-  
body.

"Wind it, Jack," said the nautical  
assistant, and with an "Aye, aye, sir,"  
Jack promptly turned the baby end for  
end, and it was duly christened head  
first—"On a Man-of-war."

The Virginia Plover.  
The most wonderful bird flight noted  
is the migratory achievement of the  
Virginia plover, which leaves its  
haunts in North America and, taking  
a course down the Atlantic, reaches  
the coast of Brazil in one unbroken  
flight of fifteen hours, covering a dis-  
tance of over 3,000 miles at the rate  
of four miles a minute.

Condensed.  
"Here is an article on 'How to Live  
a Hundred Years.'"  
"Yes, and the whole subject can be  
condensed into two words."  
"What are they?"  
"Don't die." — Cleveland Plain  
Dealer.

### SOLDIERS GET REVENGE

Administer Trouncing to Shipbuild-  
ers in Rather Listless Contest.

### ANOTHER SMALL CROWD ATTENDS

Little Incentive for Good Ball Play-  
ing Found in Empty Seats—Other  
Games Will Be Played Because  
Team Needs the Money.

Carson's soldier ball players from  
Fort Monroe had revenge upon the  
Shipbuilders at the Casino park yester-  
day afternoon, triumphing the home  
boys by a score of 4 to 2. The en-  
gagement was not nearly so fast and  
exciting as the one between these  
teams last Saturday, which the locals  
captured in the final round by a mar-  
gin of 3 to 2. Stupidness and listless-  
ness characterized the fielding and  
base running of both nines yester-  
day and were responsible for most of  
the tallies counted.

One of the redeeming features of  
the game was the clever work of  
Thomas O'Brien, who occupied the  
hard ball throughout. He pitched  
ever against him. The soldiers could  
straighten his twisters for but six  
small inches, while nine of them chop-  
ped great holes in the atmosphere in  
vain efforts to locate the leather.  
O'Brien also pulled himself out of  
several bad "holes."

Millett, the soldier "split ball" ar-  
tist, was pitted against O'Brien and,  
although he was touched for a total  
of eight hits, he was particularly ef-  
fective with men on bases. He  
showed good judgment in the fifth  
round when, with the third and second  
sacks populated, he walked Roaten,  
for Faye proved an easy out and no  
runs counted.

There was little incentive for either  
team to play hard ball yesterday, for  
in spite of the fact that it had been  
announced that this would be the last  
game of the season unless the attend-  
ance increased, one of the smallest  
Saturday crowds of the season was  
gathered in the park. There were  
less than 200 paid admissions to the  
game and the locals lost money.  
The Shipbuilders are behind in  
their finances this year and it is  
probable that they will play several

more games in an effort to get money  
enough to pay off all of the season's  
indebtedness.

Latitude and Longitude.  
The lines seen on maps and globes  
called degrees of latitude and meridian  
of longitude serve the very important  
purpose of fixing the position of places  
and things and the reckoning of dis-  
tances (north, south, east or west)  
from a given point. Latitude measures  
distance north or south, longitude  
measures distance east or west, and  
between the two the exact position of  
a county, city or ship can be definitely  
determined. The base of calculation,  
north or south, is the equator; that of  
the distance east or west is Green-  
wich, England. A line joining the  
poles and passing through Greenwich  
is called the prime meridian, from  
which distance east or west is calcu-  
lated.

Lost and Found.  
Lost, between 9:30 p. m., yesterday  
and noon today, a billious attack,  
with nausea and sick headache. This  
loss was occasioned by finding at all  
Druggists a box of Dr. King's New  
Life Pills. Guaranteed for bilious-  
ness, malaria and jaundice. 25c.

Wanted an All Around Vacation.  
"The congregation paid up every cent  
of my back salary today," announced  
the village minister.  
"How in the world did they happen  
to do that?" queried his astonished and  
delighted wife.  
"I announced from the pulpit," ex-  
plained the good man, "that unless I  
got the money I would not be able to  
take the three months' vacation I had  
planned."—Chicago News.
